Dear Mr. Small:

When you spoke to the Board of School Trustees at their meeting on July 23, 2009, you presented a packet of information that included documents from 2004 and 2007. As you recall, staff from the Clark County School District's Internal Audit Department met with you and requested that you provide more details. Lacking specifics, they have been unable to investigate your allegations.

It would be helpful if you would please provide to me a brief summary, detailing the remaining issues that are of concern to you at the present time. We cannot correct what may have happened a few years ago, but if you could provide specific details about current issues or problems, those can be investigated.

Thank you.

Sincerely,

Jeff Weiler  
Chief Financial Officer
